ABOUT ME

A highly motivated aspiring cloud engineer with strong analytical capabilities and the ability to grasp new concepts quickly. Proficient in theoretical and practical applications of AWS, Linux and programming languages such as Python and SQL. In addition to this, I have developed a foundational level of understanding in networking and security concepts, and regularly attend networking events to further my knowledge. My work experiences have made me an excellent communicator and adept at managing multiple responsibilities.

EDUCATION

2020 - • Generation UK & Ireland
AWS re/Start programme

2015 - 2019 • Birkbeck University
BSc Economics (Second Class Honours)

2008 - 2015 • Whitmore High School & Sixth Form

A Levels: Biology, Economics, Mathematics
GCSEs: 11 A-C grades inc. As in English & Maths

EXPERIENCE

Sep 2020 - **Generation UK & Ireland**

Nov 2020 *AWS Cloud Operations Engineer Trainee*

- Learned the fundamentals of cloud computing, programming, networking and security
- Built scalable, highly available and cost-efficient architectures using AWS services such as EC2, VPC, RDS, DynamoDB, S3 and ELB
- Achieved high marks in all end of unit tests

Sep 2019 - **Amazon UK Services Ltd**

Feb 2020 *Operations Assistant*
